Industries and the Incubation Centers established on the college for training programmes and placement.

The Board members appreciated the organization of the Nirmala Annual Research Congress where 99 research papers were published. They appreciated the efforts of the IQAC in strengthening research. The NCC Cadet Steffi Mary Thomas was also applauded for her participation in the RD Parade, New Delhi.

They insisted that reports are a must for all activities conducted in the college. Feed backs are essential for all the students, in terms of curriculum, teaching-learning and the general environment of the college.

There was a discussion on Outcome Based Education in the curriculum. OBE was initially introduced for engineering colleges, but has now been implemented for arts and sciences colleges. Though it is difficult to chart related outcomes in an arts and science college, it is important that these practices are initiated in the colleges. The question papers have to be analysed according to the OBE pattern.

The members also suggested that the potential ability of the students, have to be recognized and tapped accordingly to achieve greater heights.

The meeting came to an end with the vote of thanks by Miss Harsha Pandiya, Assistant Professor, Department of English.

Discussion during the Advisory Board Meeting
